October 24, 2007

CineFX

To Whom it may concern,

I have had the great pleasure to work with Mickey Kirsten and his partner Mario Duthie who together led and supervised the Special Effects on two of my Productions "Flood" and "Doomsday" which both shot in Cape Town 2005/2007.

The expertise, professionalism and great good humour Mickey and his team brought to both films was simply without equal. I have shot films with SFX involvement all over the world and to date have never come across such a skilled and highly committed bunch of people. Mickey and his guys went to hell and back for us and I know if we needed them to they'd do it all again with the same drive and style.

It gives me great pleasure to be able to so wholeheartedly recommend them. They're a world class act. If you're lucky enough to have them available for your production then sign them up fast...there's nobody better anywhere.

Yours truly

Peter McAleese

Producer "Flood"

Executive Producer "Doomsday"
